As part of the International Programs Department, the center supports international students in developing their French skills and easing their linguistic and cultural integration into everyday life, academic studies, and professional environments.

Welcoming students from more than 60 countries each year, EPITA has built a vibrant and forward-thinking language center within its international division. Backed by a multilingual team, it provides comprehensive, high-standard services, including personalized support, guidance, and a smooth onboarding experience for all international learners.

French by EPITA was first awarded the FLE Quality Label in 2015 and has successfully renewed it twice, in 2019 and 2023. Granted by France Education International, a public institution operating under the direct authority of the French Ministry of Education, this label is the only official accreditation for French as a Foreign Language centers. It assesses five key areas: teaching, faculty, student support, facilities, and management. French by EPITA received the highest rating in all categories.
